THE SENATE EXODUS COMMITTEE AGAIN IN SESSION.

Generals Sherman and Boynton to the Front Again--Charlie Ross not Found--Other Late Dispatches.

WASHINGTON, Feb. 9.—Before the Senate Exodus committee to-day, L. H. Lowrey, colored Republican, formerly a commissioner of Lenoir county, North Carolina, testified that the sole cause of the late exodus from that county was the agitation originated by a man named Perry, who told the negroes that they would get transportation to Indiana, and employment there at $1.00 to $1.25 per day. There was no ill treatment of the negroes by the whites in North Carolina. Farm laborers there get from $8 to $10 per month, with cabins, firewood and subsistence thrown in. During the cotton season men and women can earn from $1.00 to $1.25 per day. Skilled laborers like blacksmiths and carpenters get from $1.00 to $2.00 per day. Negroes and white mechanics work together, the latter getting slightly higher wages. The whites escape punishment in court oftener than the negroes, because the whites "have more money to employ lawyers. They are sharper than the negroes and can cover up their rascalities better." The negroes have ample educational facilities. The relations of the two races are friendly. He had by his labor acquired several houses since the war, some of his tenants being whites. He thought that Perry's object in inciting the exodus was purely mercenary.

T. H. Fisher, formerly a slave, now district school commissioner and owner of a farm and city lots at Kinston, North Carolina, corroborated the other's statements as to the good material and political condition of North Carolina negroes.

Latest from Ireland.

LONDON, Feb. 9.—A dispatch to the *Times* from Dublin says the past week added but little to the evidence of the extreme distress, while it has largely augmented the resources of the Relief Committees and provisions of the government for meeting the crisis. The beneficial effect of the grants of Relief Committees is to be seen in a quieter tone of the press and the cessation of cry and alarm heard a month or two ago. There are still deplorable accounts from some of the districts, but there is generally a more hopeful spirit among the people, though there is still great cause for vigilant attention to the signs of the suffering, which may appear in unexpected quarters.

The extent to which the Land Owners have embraced an opportunity of obtaining loans upon easy terms is sufficient proof that the supposed barrier of the red tape has not been thought unsurmountable. During the past week the number of new applications reached 200, and the amount applied for was 111,000 pounds which, added to the previous amount of 265,000 pounds, makes an aggregate of 376,000 pounds since the 22d of November.

Charley Rosss Again.

NEW YORK, Feb. 9.—The Superintendent of Police says there is positively no truth in the rumor that a clue has been discovered in the Charley Ross again.

Sherman and Conkling.

WASHINGTON, Feb. 9.—Secretary Sherman, in conversation with regard to the letter recently published as a copy of one addressed to him by his brother-in-law, Mr. Moulton, said that he had no recollection of the letter, but it was quite possible he had received it. He believed the statement made in the letter that Senator Conkling would support him for President, if nominated, to be true. Mr. Sherman's friends say, in addition to this, that Mr. Conkling would much prefer him to Blaine, but that gentleman, who hates most cordially both Blaine and Sherman, does not himself say which of them he would consider the lesser evil.

General Sherman Speaks.

WASHINGTON, Feb. 9.—The following has been furnished for publication to the agent of the Associated Press at Washington:

"My private correspondence show that some persons actually believe that General H. V. Boynton, correspondent of the Cincinnati *Gazette*, has begun some sort of proceedings against me for slander in civil or military court. So far as I know up to the present instant of time he has done nothing of the kind except in newspapers.

(Signed) W. T. SHERMAN.

Marine Disaster.

NEW YORK, Feb. 9.—A Greenport, L. I., special says: The yacht Coneing of the Atlantic Yacht Club, supposed to have foundered in the sound in the gale of Monday night, is reported as moored off Peconic inlet. Ben Case saw a yacht drifting along shore and brought it in behind his smack. The captain's watch was found on the floor of the cabin; it had stopped at 1:20. The brig Guesboro that afterward stranded on Eaton's neck, was being towed here by the tug Albert, the captain of which says the hawsers parted in the night and the yacht could not be found. All on board the brig and yacht are believed to have perished. Three persons were on the yacht and five on the brig.

"Christopher Columbus" Sunk.

NEW YORK, Feb. 9.—The steamship Magara arrived from Havana yesterday, and reports that on the 6th ultimo she fell in with the German bark Christopher Columbus. She was in a sinking condition, and her captain and crew of ten men were taken off with difficulty, as a high sea was running. The Christopher Columbus was bound from Daboy for Marsailles. She encountered a heavy gale on the second day she was out, during which she sprung a leak.

Foreign Flashes.

LONDON, Feb. 9.—A Candahar dispatch says that reports have been received of the second and more bloody struggle between the rival parties at Herat. The local troops attacked the Cabul stationed there on unawares and inflicted a heavy loss before the Cabuls could bring their artillery to bear on their assailants. When this was done the Herats were defeated and with great slaughter.

A Paris dispatch states that there is a serious possibility of Admiral Jauregurbbery resigning from the ministry of the Marine, in consequence of the Budgett Committee's decision to postpone the vote of eight hundred thousand francs for the colonial defences until the proper data forthcoming.

It is said that M. Lepere, Minister of the Interior, will also resign.

A Neice of Gen. Sherman Married.

CINCINNATI, February 5.—Miss Celia Moulton, daughter of C. W. Moulton, and a neice of General Sherman, was married at noon to-day to Lieutenant Rockwell, U. S. Army. The ceremony took place at Glendale, the residence of the bride's father.

Excitement in Richmond.

RICHMOND, Feb. 9.—Considerable excitement was created at the Capitol to-day during the session of the General Assembly by a personal encounter in rotunda between O. A. Archer, one of the reporters of the Richmond *State* and James A. Frazier, a member of the House Delegates from Rockbridge. The difficulty grew out of a letter written by Frazier to the Rockbridge *State* with gross misrepresentations of the proceedings of the House. Mr. Chamberlain, the delegate from Richmond, and one of the proprietors of the *State*, called the attention of Frazier to the letter, and denounced it as false, malicious and slanderous. Mr. Frazier, in reply, disclaimed any intention of reflecting upon Capt. Chamberlain, and said that he referred to the Reporter of the *State*. There the controversy ended. But subsequently Mr. Archer, the Reporter of the *State*, called Mr. Frazier out into the rotunda and, after some words, struck him, when the fight ensued. The members of both Houses made a rush for the scene of business, but were suspended, and great disorder prevailed. A squad of police was sent for and all parties to the fracas were finally arrested and bailed, to appear before the police court to-morrow.

UNCLE REMUS' FOLK-LORE.

Brer Fox and the Deceitful Frogs.

Atlanta Constitution.

When the little boy run into see Uncle Remus the night after he had told Him of the awful fate of Brer Wolf, the only response to his greeting was:

"Id'omerkerkummerker!"

No explanation could convey an adequate idea of the intonation and pronunciation which Uncle Remus brought to bear upon this wonderful word. Those who can recall to mind the peculiar gurgling, jerking, liquid sound made by pouring water out of a large jug, or the sound produced by throwing stones in rapid succession into a pond of deep water may be able to form a very faint idea of the sound, but it cannot be reproduced in print. The little boy was astonished.

"What did you say, Uncle Remus?"

Idoomerkelkummerker! Idoomerkerkummerker!"

"What is that?"

"Dat's Tarrypin talk, dat is. Bless yo' soul, honey," continued the old man, brightening up, "w'en you gits old ez me—w'en you see w'at I sees, en hear w'at I hears—de creeturs dat you can't talk wid'll be mighty skase—dey will dat. W'y ders er old gray rat w'at uses 'bout yer, en time after time he comes out w'en you all gone to bed en sets up dar in de corner en dozes, and me en him talks by de 'our; en w'at dat ole rat dunno ain't down in de spellin' book. "What did he say, Uncle Remus?"

"Dat wa't he said—Idoomerkerkummerker! Brer Tarrypin wuz at de bottom er de pon', en he talk back, he did, in bubbles—Idoomerkerkummerker! Brer Fox, he ain't sayin' nuthin', Brer Bullfrog sittin' on de bank, he hear Brer Tarrypin, he did, en he holler back:

"Den n'er Frog holler out:

"Den n'er Frog sing out:

"Sho nuff, Brer Fox look over de bank, he did, en dar wuz nudder Fox lookin' at 'im outer de water. Den he retch out fer ter shake han's en in he went heels over head, en Brer Tarrypin bubble out:

"'Idoomerkerkummerker!'"

"Was the Fox drowned, Uncle Remus," asked the little boy.

"He wern't zackly drowndid, honey," replied the old man, with an air of cautious reserve. "He did manage fer ter scrambie out, but a little mo' en de Mud Turkle would 'er got 'im, en den he'd bin made hash uv worrul widout eend."

Less than fifty years ago a man could not make over 14 pins a minute; now he can make more than 1,400. Then one girl could stick on papers about 10,000 pins a day; now a fair day's work is from 800,000 to 1,000,000.

Oshkosh, Wis., has the largest match factory in the world. It cut up 2,000,000 feet of logs into matches, and used $200,000 worth of revenue stamps during 1879. Besides, it manufactured one-fourth of all the merchant work sash, blinds and doors made in the United States.

INDUSTRIAL ITEMS.

We sent last year to Europe 1,500,000 hides.

The combined length of the new railroads projected for 1880 will be 6,000 miles.

Seven machines in Pittsburgh, Pa., produced, last year, over 1,063,345 kegs of nails.

There are made yearly in Reading and Berks counties, Pa., over 6,000,000 woolen hats.

The packages of tomatoes put up last year in the United States reached the total of 19,968,000, of which New Jersey put up 5,682,000 cans.

It is estimated that 50,000 men and women in Philadelphia in the manufacture of clothing, making 20,000,000 suits a year.

Chicago's lumber receipts for the past year have been greater by 25 per cent. and its shipments by 16½ per cent. than in any previous year.

Illinois farm products amounted to $200,000,000 last year, which is double the product of all the gold and silver mines in the United States.

Chicago packed last year 5,100,000 hogs, being an increase of 10 per cent. over 1878, and 75 per cent. over 1877. Over 10,000 men are employed.

The grape islands of Lake Erie have 4,000 acres of vines, and the yield in 1879 was 16,000,000 pounds. The wine production was 1,525,400 gallons.

A So-Called Expose of Masonry.

A Boston dispatch states that J. P. Stoddard and D. P. Rathbone, Methodist ministers, of Iowa, gave a so-called expose of Masonry in the Chamberstreet Church in that city Friday evening. They initiated a candidate in the first degree, using the pulpit platform as a lodge room, and claiming to exhibit all the ritual. Friday evening a large and excited crowd attended the church, when Rathbone made a bit er address against Masonry, claiming it was organized infidelity. He then proceeded to work the degree of "Master Mason" amid a scene of disorder heretofore unknown in Boston church history. A large number of the police was necessary to keep the crowd in order. They hooted, jeered and snowballed the preacher, and the wildest uproar prevailed. Comparative order was restored after a while, but the minister was frequently interrupted and hooted down before he concluded his address.

General Tom Thumb may be seen in the American Dime Museum in New York, with an assortment of other curiosities, for ten cents. The General regards this as somewhat of a come down, as he was never before exhibited for less than a quarter.

Discouraging the Exodus.

TOPEKA, Kan., Feb. 5.—The officers of the Kansas Freeman's Association have been directed by the directors of the association, to devise and put in operation some practical method of diverting the constantly increasing immigration of colored people to Kansas. An effort will be made to turn the tide to other States, where there is more need of laborers, and where the people are better able to care for such as are in destitute circumstances.

The Rev. I. N. Kalloch, Mayor of San Francisco, will soon inflict himself on the principal Eastern cities in the capacity of a lecturer.

The largest organ in the world is now being constructed in the Stewart Cathedral, Garden City, L. I. The peculiarity of this organ is that its several parts are distributed about in different parts of the building, connected by pipes. One portion is in a tower at the west end; another over the ceiling in the centre of the nave, and another portion is underneath the chancel. And another remarkable thing about it is that the large chimes which hang in the tower are connected with the organ, and can be played by the organist with the keys of the instrument. The whole is fitted with electrical and hydraulic machinery, which renders the labor of playing as easy as that of a small church organ.

A Costly But Satisfactory Experiment.

The experimental test of the question as to the cause of the explosion of the thirty-eight ton turret gun on board the British iron-clad Thunderer, in the sea of Marmora, January 2, 1879, by which several officers and seamen were killed, was made recently at the Proof Butts, in the government marshes adjoining the Royal Arsenal, at Woolwich, England. The theory was that the disaster resulted from the double loading of the gun through carelessness, and according to this theory the sister gun, which was brought home for the purpose of experiment, was loaded and fired with a double charge of eighty and one hundred and ten pounds of powder, one thousand six hundred pound common shell and one thousand seven hundred pound Palliser projectile. The gun burst, as its fellow did on board the thunderer, thus satisfying the opinion of the committee of investigation as to the cause of that disaster. The muzzle of the gun and the projectiles were buried in the sand at the Proof Butts. The remainder of the gun, with the exception of its base, was blown to atoms.

Alston's Murderer Refused New Trial.

ATLANTA, Ga., Feb. 7.—The Supreme Court of Georgia to-day refused to grant a new trial to Cox, who was sentenced to imprisonment for life for the murder of Col. Alston. The case will be carried to the Supreme Court of the United States.

NEWSPAPER NIBBLES.

PRESS EXTRACTS ON THE PRESIDENTIAL QUESTION.

That Pennsylvania Convention and What is to Come of It--Stalwart Prophecies.

KEOGH'S OPINION.

Col. Thomas Keogh, secretary of the National Republican Committee, says it was a clean-cut fight, and that there was very little in the way of speeches, but a deal of hard work done. He says the work clearly demonstrates that either Grant or Blaine will get the Presidential nomination.

DON CAMERON SEES SOMETHING.

Gen. Cameron says he believes the action of the Pennsylvania Republican State Convention will be ratified at the National Convention. He compares Grant to Gen. Jackson, who enjoyed very little popularity with the politicians but much with the people. Even if Grant should not be successful, great good will result from the action of the convention in the adoption of the unit rule. At the National Convention it has been the foolish custom of dividing the Pennsylvania delegation, and thus destroying its potency in the nomination of a President, but at Caicago the delegation will vote as a body to make their power felt.

THE MISTAKE BLAINE'S FRIENDS MADE.

Hon. Wm. E. Chandler thinks that Mr. Blaine's friends in Pennsylvania made only one mistake. He says that it was unwise to have offered the amendment to substitute Mr. Blaine's name for that of Gen. Grant's in the resolution of instructions. They should have known that Blaine was in a small minority in the convention, and did not know it, and hence should have withheld the amendment. He thinks, too a vote should have been forced on the reaffirmation of the anti third term resolution, adopted by the Pennsylvania convention in 1875.

WHAT THE NEWSPAPERS SAY.

New York Herald.

Senator Cameron has not won his victory without a contest, but it is nevertheless a victory. He has succeeded in controlling the convention, succeded in causing the delegates to be instructed to vote as a unit and to give their united vote for the ex-president. This is what he aimed at, he has accomplished his aim.

New York Tribune.

This must be severe disappointment to the friends of General Grant and a hard blow to the movement for his nomination.

New York Sun.

The attempt to elect Grant a third time will decide whether the people are tired of their own government—tired of governing themselves. If they are, they will elect Grant. If they are not, they will reject him.

Washington Post.

Unless General Grant is willing to engage in one of the most bitter and acrimonious contests that has marked a republican convention since Lincoln's first nomination, the immediate result of yesterday's work at Harrisburg will be his formal withdrawal from the race.

Philadelphia Times.

The one visible and irrevocable result of his (Cameron's) needless contest at Harrisburg is the clearly taught lesson that General Grant cannot be the nominee of the Chicago convention.

Philadelphia Record.

The Grant boom has got beyond the period of soothing syrup and paregoric. If it runs the gauntlet of summer complaint at Chicago the next danger will be the poli-evil in November. A cemetery lot may as well be spoken for.

New York Commercial Advertiser.

No man who is not blinded by his prejudices in favor of some other candidate can fail to see that General Grant will be the candidate of the republican party for the presidency, and the man who doubts that he will be elected is short-sighted.

New York Daily Graphic.

General Grant will be a candidate for the Presidential nomination before the Chicago Republican Convention. All doubt on that point has been removed. It looks now as if there would be a scramble for the nomination, and that the ex-President would have to take his chances in the race. But it should be remembered that five months separate us from the meeting of the convention. There is ample time between the 5th of February and the 2d of June to dispose of all the candidates but one. Grant may go into the Chicago Convention of 1880, as he went into the Chicago Convention of 1868, and into the Philadelphia Convention of 1872—alone. The coming convention may simply be called upon to register the will of the Republican masses in placing U. S. Grant in nomination for the Presidency.

Burglars in David Dudley Field's House.

New York Sun.

On Saturday evening last, David Dudley Field was paid $2,200 just as he was leaving his office. The banks being closed, he carried the money to his home and put it in a desk. At about midnight a policeman informed him that his basement door was open. The house was searched, and nothing appeared to have been disturbed. At 2 o'clock the discovery was made that thieves had been in the house, lighted the gas, broken open the desk and stolen the $2,200.

The Republican Convention.

The Republican National Convention will consist of 756 delegates, and a majority only is required to nominate. Two delegates are allowed for each Representative and Senator in Congress and two from each Territory and the District of Columbia. There are 293 Representatives, 76 Senators, 8 Territories and the District, and that number doubled makes seven hundred and fifty six. The Democratic National Convention consists of only seven hundred and thirty-eight delegates who are entitled to vote. The District of Columbia delegates and those from Territories are merely honorary; they are not permitted to vote. The rule now in force in holding Democratic Conventions requires a two-thirds vote to nominate candidates for President and Vice-President, but it will be within the power of the coming convention to abolish it and substitute the majority rule if it sees fit. In the Republican convention it will require three hundred and seventy-nine to nominate, while in the Democratic—unless the rule shall be changed—it will require four hundredand ninety-two.

Riddled With Bullets.

NEW YORK, Feb. 9.—A special from Los Vegos, N. M., states that the cow boys, Jim West, John Dorsey and Tom Henry, implicated in the shooting of City Marshal Carson, at Dance two weeks ago were taken from their cells by a mob of seventy-five men, who hung West and riddled the others with bullets.

NOTES AND COMMENTS.

Kentucky has established the whipping post as a punishment for petty crimes, and now Illinois wants it as an addition to her own means of correction.

It is estimated that more miles of new railroad will be built in 1880 in the United States than ever before in one year.

Gen. Spinner, ex United States Treasurer, has written a letter in opposition to the proposed effort to refund the debt at less than 4 per cent.

Young Stephen A. Douglas, son of the old man, announced himself as a stalwart Republican and a Grant man at Mattoon, Ill., last week.

The peppery little principality of Montenegro is laying in a stock of cartridges for future use, 4,000,000 having been ordered from an Austrian manufacturer.

The Duchess of Marlborough's relief committee seems to take more pains in investigating and contradicting reports of distress in Ireland than in relieving the same when found.

Col. Frederick A. Conkling, brother of the great Roscoe, is as ardently Democratic as ever, and is now at Albany, attempting to reconcile the Democratic factions in the Empire State.

The Democratic press of Indiana are unanimous that William H. English, of that State, should have a place on the Presidential ticket this year. And they don't appear to be particular as to which place he has.

The amount of money raised in Chicago for the relief of sufferers in Ireland, and either remitted already, or about to be remitted, is $7,500, and the collecting committees are confident of their ability to bring it up to $12,000.

It is charged that John Sherman, in order to strengthen himself in New York, is permitting appointments to be made in the New York Custom-House without regard to the strict rules of civil service, which require examination.

In many counties in West Virginia steps are being taken to organize woolgrowers' and sweep-breeders' associations to encourage the raising of improved breeds of sheep for wool and mutton, and, above all, to check the depredations of sheep-stealing dogs.

From now until after the Chicago convention we may confidently look for large monthly reductions of the public debt. Mr. Sherman understands the manipulation of claims so thoroughly that their adjustment will not be permitted to repress his boom. He gets a fair send-off in a reported reduction of more than eleven millions for last month.

New York Letter.

Correspondence of the NEWS.

NEW YORK, Feb. 7.—As I am now at leisure, I shall endeavor to write a few facts in regard to the great metropolis. Perhaps the different topics which I am now about to communicate to your valuable paper will interest its readers, both old and young; those that have visited this city, as well as those who contemplate so doing. In the first place I shall endeavor to enlighten your readers in regard to the weather, which is a topic that we always have to write on, and never grows "stale."

Tuesday morning between the hours of 1 and 2 o'clock the heaviest and deepest snow-storm that this city has experienced within the past five years, occurred, accompanied by a most terrific gale, doing considerable damage to public and private buildings, and causing the death of several persons. The wind at this point early that morning was traveling at the rate of 48 miles per hour, but about noon the storm centre was a little south of the city and continued to pass to the east.

Three canal boats, loaded with coal, were sunk off the City Island. The street cars were crowded to their utmost capacity. Before the general work of the day began—before the streets were filled with vehicles, and the sidewalks with foot passengers, the city presented a beautiful sight, with its white thoroughfares and glistening roofs, but the traffic on the streets soon worked a disenchantment, and before noon the snow turned into rain, which metamorphosed the "beautiful snow" into unsightly slush.

The Southern mail, due here at 7 A. M., was not ready for delivery until after 1 o'clock.

The snowfall here was equal to at least 20-100 of an inch of rain.

Early in the morning, on Broadway, near Astor Place, one poor horse was seen stretched out cold and stiff, with his head buried in a snow-bank. It was a hard day for the horses, and many of the poor beasts had to succumb.

The elevated railroad trains made their way through mid air as carefully as a vessel through a fog. They were crowded to overflowing, and many had to wait at the stations twenty minutes or half an hour before they could find even standing room on the trains.

A brakeman on the Hudson River Railroad, during the snow-storm, was blown from the platform and of one of the cars and killed near Chatham, N. Y. I could write more in regard to this storm, but as space will not allow me, I'll have to cut it short.

There was a very large and disastrous fire last night, in a furniture factory at 156 West 19th street, supposed incendiary. Loss estimated at $100,000. It seems as if the workmen employed by the firm were engaged in a strike, and the supposition is that some of them set fire to the building in order to be revenged.

It is reported here in society circles that Hon. S. J. Tilden is to be married to a Miss Ranck, of Scranton, Pa. A great many of his friends seem to be willing that he should marry and settle down in the magnificent mansion in Grammercy Park, retire from the political field, and be happy with his (to be) charming little wife.

A review will be tentered by the Thirteenth Regiment, National Guard, of Brooklyn on Tuesday, at their armory, to Colonel James B. Purcell, of the First Regiment National Guard, of Richmond, Va. The Colonel and several of the officers of his staff are on a visit to this city. The Colonel is to leave for his home in a few days and the well wishes of the Northern soldiers, will accompany him to his beautiful home, "The Old Dominion."

I often meet upon the street North Carolinians and all of them seem to like the life of the Metropolitan City, and all seem to enjoy the best of health, i. e., if one can judge by looks.

To-day is the 59th anniversary of the birth of the founder of the New York *Tribune*—Horace Greeley.

Dennis Kearney says that Tilden sits in his office like a spider with his "suckers" spread out all along the continent, fixing and oiling the machine.

It seems that New York has been annoyed more by the squabbles of the contending Police Commissioners than the former had any right to expect. General Smith "looms" up again; but the sheets continue dirty and filthy.

IMPOTENT IRELAND.

THE BLACK FLAG FLYING IN THE EAST AND WEST.

Distress, Disease and Death Spreading—The Rustle of the Wings of the Angel of Death.

Irish World Staff Correspondence.

The pinch of unsatisfied hunger is now felt by at least the one-fifth of the population of Ireland. In the agricultural districts, in cities and towns—by the sea shore,

THE BLACK FLAG

has been raised and marched under by hundreds of starving men—in Cork in the South—Dublin in the East—Sligo in the Northwest. The meaning of this signal is anarchy—a rebellion of the hungry against those who have any food unconsumed. The black flag when unfuried respects not the "rights of property," and to this condition the Land Robbers have brought Ireland. "In thousands of Irish homes at this moment (says the Dublin *Freeman*), men are suffering not alone the physical pangs of want, but the still more mental torture which the strong man feels when he sees the gaunt palor of hunger whitening the cheek of his beloved wife, and seeing her looking down upon the wistful eyes of the children she has borne him, crying for the food which their father cannot give them. We can hear in the air, as it were, the rustle of the wings of the Angel of Death above the heads of the doomed multitude."

FATHER CONWAY, OF SKREEN, WRITES:

"I declare before High Heaven, this day, that notwithstanding the charity extended, if the Government of the country does not interpose, the people bye and bye will die in thousands of want. The class most in need at present are the small farmers. The few charitable persons who, on reading the report of your kind commissioner, sent me something, enabled me to give in four days 1 cwt. of Indian meal to each of fifty-four families, and to eight 2 cwt. each. The individuals thus relieved number 273, and the relief continues for eight or ten days. Now will your readers just imagine these poor people trying to cook that meal with little bits of sticks, for they have no turf or coal, and when cooked to eat it without milk. Is this food fit for human beings? Yet I have seen my poor people go down on their knees and bless the persons that gave them that meal.

TURKISH ATROCITIES NOWHERE.

The London *Times* and the London *Daily Telegraph* have now their "commissioners" traveling in Ireland, and the facts of famine and suffering, which they gather up and publish, respecting the victims of the Land-Robbers, will awake all Europe to their horors—even to the furthermost confines of Russia! Talk of the "atrocities of the Turks!" Talk of the sufferings of the Christians in Bulgaria under the Turks! A woman presented herself at the Killarney workhouse with three children; one of them was dead in her arms from hunger. She had traveled forty miles, through a depopulated country, without tasting food, and her youngest child died in her arms from sheer hunger as she traveled. The Mayor of Cork expostulated with the hungry mob that had raided the bread carts and other provision carts in that city.

THE BLACK FLAG IN DUBLIN.

A mass meeting of the unemployed laborers of Dublin was held yesterday at Harold's Cross Green, between 3,000 and 4,000 persons being present. A man in front of the platform held aloft a black flag surmounted with a loaf of bread. The Chairman, Mr. M. Mooney, said they were met to devise the most legal and most judicious means to obtain employment. Look at those present. There were hundreds with the pictures of poverty in their faces. Money was being accumulated for relief in other parts of Ireland. Citizens of Dublin were remaining in a state of starvation. The numbers of the poor were daily increasing—seeking a home. Where? In a workhouse, where their wives and families would be torn from them. They did not want to go beyond the bounds of the law unless they were shoved out of their homes. If they did not get employment, they must force it.

A Newspaper Accused of Sabbath Breaking.

WHEELING, W. Va., Feb. 6.—Affidavits were to day sworn out charging the *Daily Register and Intelligencer* with Sabbath desecration by employing workmen on Sunday in violation of State law. The law and order party say they will fight to the bitter end, and have employed detectives.

The Fire Record.

DUBLIN, February 9.—The Theatre Royal is burning, and it is feared that it will be completely destroyed.

WHITE HALL, N. Y., Feb. 9.—The large steam saw mill at Fort Edward, formerly owned by J. A. Russell & Son, and now the property of Bradley & Underwood, was totally destroyed by fire this morning. The loss is $30,000; insurance $18,000. Thought to be the work of an incendiary.

The Miles Alarm Money Drawer.

Our attention was recently called to this drawer, and after an investigation of its manner of working, we have introduced into our business office, with a good deal of confidence that it is an effectual bar to "till tapping." The drawer is made of black walnut, the lock of annealed iron, having thirty changes and a double-locking attachment, &c.—*New York Tribune.*

DAILY NEWS

MONDAY FEBRUARY 9, 1880

THE readjusters of the Virginia Legislature have agreed in caucus to pay three per cent. interest on $19,600,000, and a bill to that effect will be reported to-day.

The N Y *Sun* would like to see Judge Church nominated for President by the Democratic party and the Rochester *Union and Advertiser* wants Hugh J. Jewett elected to the same position.

Representative Ward, of Pennsylvania, yesterday introduced a bill in Congress authorizing the Secretary of the Navy to designate a vessel to be used in carrying over contributions to the Irish sufferers, free of charge.

OUR neighbor, the *Observer*, makes the mortgage bonds of the Western North Carolina Railroad mature in 1885. It is as well to be accurate in statements of this sort. They are fifteen year bonds, and are dated in 1875. The bonds mature in 1890.

WHETHER the proposition be to wring from the people onerous taxes or to wrench from the State her property and the advantage of its possession without a fair consideration, the NEWS is the same;—equally opposed to either.

COMMANDING the situation with reference to all future and present necessary Northwestern and Southwestern connections through the Cumberland Gap region, the State of North Carolina to-day occupies a better position in respect to her internal improvement interests than at any period within her history. The right of way through by Paint Rock and Asheville has suddenly become absolutely indispensable to certain great railroad interests in Tennessee, Kentucky, Ohio and beyond, and the existence of Charleston, in competition with the Gulf Ports, is dependent upon it. In this attitude of affairs it is highly proper to ascertain the value of our property and the advantages it controls, before we sell it, and if we sell, get for it something like an approximate value.

PAINT ROCK DIVISION.

The estimated cost of building the Paint Pock Division of the Western North Carolina Railroad, which is the link that now causes the road to begin to assume importance and value to assume importance and value to outsiders, was in 1860, by Major James C. Turner, as follows:

Length, 449 miles, graduation and masonry	$366.317,14
Ten per cent. for contingencies	36.931,71
Engineering and superintendence	45.000,00
Iron, chains, spikes, cross-ties, laying track and land damages	309.800,00
Wells, wood and water stations, repair shops, ware house and equipments	120.000,00
	$941.048,84

These figures represented gold prices in 1860, and assuming that things were then about as now, the work would cost the same to-day, less about $70,000 of grading since done. We have then, the cost of this work by hired labor. But, the principal engineering having already been done, engineering and general superintendence may be reduced $30,000; contingencies may be cut down more than half; convict labor would reduce the cost of balance of graduation and masonry to, say, $100,000 now, counting their maintenance, tools, materials, &c; the right of way having already been acquired, and laying track with convict labor, a further saving of $20,000 could be made on those and the items below. Therefor the road from Asheville to Paint Rock, 44 miles, will cost the State to build it, $6,000 now, using convict labor, and charging the cost of maintenance of convicts to the krow.

There is now a 7 per cent. mortgage of $850,000 on the road. From Salisbury to Paint Rock is 180 miles; a 6 per cent. mortgage of $8,000 per mile will produce, at par $1,440,000. Has it occurred to any friend of the road or the State, that such a mortgage might be put on, the 7 per cent. $850,000 mortgage bonds taken up, and then money enough be left to complete the road to Paint Rock? Bonds to run 30 years, and the State keep control of her properly, no further appropriations necessary, and not another dollar taken out of the State Treasury.

FILLING UP THE WASTE PLACES.

The progressive improvement of our material condition seems almost inevitable.

The Atlantic and North Carolina Railroad has invited the attention of immigrants and settlers to the lands and manifest advantages along its line, and has tendered free transportation for the persons and property of settlers anywhere contiguous to the road, for a whole year.

There is perhaps no portion of the country presenting more attractions to farmers of small capital than the section of country lying between the Neuse river near Kinston, and the Atlantic ocean at Beaufort Harbor. The country is perpetually green; snow and ice are almost unknown; about all the fruits of the tropics grow there in profusion; trucking is three weeks earlier than Norfolk, and quite equal to Savannah and other South Atlantic and Gulf points; transportation is quick and cheap, and the production of the soil profuse and abundant. The truck farmer in this region, after gathering his early market crop, plants cotton, and in the fall takes a bale to the acre of the staple, thus producing on the same land, with the same fertilizer and with but little additional labor, two money crops. We do not see why this portion of North Carolina lying between the Wilmington and Weldon Railroad and the ocean, constantly warmed by the Gulf stream, and thereby assured of good seasons and perpetual warmth, shall not prove the El Dorado of the South.

A colony of Dutch settlers is now locating at Havelock, half-way between New Berne and Morehead City, having purchased eighteen thousand acres of land, and we understand that the prospect is they will occupy the whole country. It is predicted that these Dutch settlers finding the climate so delightful, the soil generous, and the tide-water streams abounding in oysters and all the food-fishes, will induce a following from their Fatherland, and there are those who indulge the hope of seeing Morehead City flourish as the Amsterdam of America. There is no reason why it should not. Once directed this way, with their frugality, enterprise and wealth, the Dutch would be able to make of our port at Beaufort harbor all that commerce is capable of developing, for they have the ships, the capital, the intelligence, the industry and frugality.

We welcome the Hollanders to our eastern section, and to them we look for a market and demand for the hitherto rich swamp lands of the free school fund, that have so long proven worthless and of no avail.

An Important Personal Item.

Charles S. Prentice, of Toledo, O., went to Paris and thence to England to be treated for Bright's disease, and after the best physicians of both countries had done what they could for him, gave up in despair and returned to America to die. Here he received further treatment from other skillful physicians without benefit, and while "listlessly lingering in pain and anguish," he says, heard of the Safe Kidney and Liver Cure, took it, and was completely cured in a few weeks. He gives circumstantial details of his painful experience and astonishing cure, in a long letter to H. H. Warner & Co., which will be forwarded on application.

Answer this.

Did you ever know any person to be ill, without inaction of the Stomach, Liver or kidneys, or did you ever know one who was well when either was obstructed or inactive; and did you ever know or hear of any case of the kind that Hop Bitters would not cure.—Ask your neighbor this same question.

A Down-town Merchant.

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all Druggists at 25 cents a bottle. *

Cuticura

BLOOD AND SKIN HUMORS,

The Scourge of Mankind. Old Methods of Treatment and Remedies a Failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this country. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Cancer, those terrible blood poisons in fact cut out the machinery of life filling the body with foul eruptions. Taken internally in conjunction with the external application of CUTICURA, the great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP.

BREAST AND LIMBS CURED.

Messrs. WEEKS & POTTER: Gentlemen—I cannot refrain from adding my need of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago believing they did me no good. The CUTICURA has stopped this unsatisfactory expense—even if it were necessary—and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs —— of —— Dr. —— of ——, and visited sulphur springs and taken rumors of patent medicines, all without the faintest approach to a cure.

April 1st last, I began the use of CUTICURA, while was immediately successful in my case, entirely curing me. I have not had a scale on my scalp for 15 years until the use of CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself completely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc.,
STEPHEN CROWELL.
NEW BEDFORD, Sept. 30, 1878.

A RUNNING SORE

CURED IN ONE WEEK.

Messrs. WEEKS & POTTER:—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DAGGETT.
MILFORD, ME., June 10, 1878.
NOTE.—Reader, don't you think these cures remarkable?

CUTICURA SOAP,

MEDICINAL AND TOILET,

Is prepared from CUTICURA in a modified form, and is positively indispensable in the treatment of Skin and Scalp Diseases. We recommend it for the preservation of the skins of infants, for gentlemen who shave and are troubled with tender faces, for those who desire a clean and wholesome Skin and Scalp, and for all purposes of the toilet, bath and nursery. Its delightful and refreshing fragrance equals or surpasses the finest Parisian Soaps.

Price of CUTICURA, small boxes, 50 cents; large boxes, $1. RESOLVENT, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

Wishing to give my whole attention to the lumber trade, in which I am about to engage on a larger scale than ever before, I offer for sale on terms to suit the times the following valuable property in Cary:

I.

MY PLUG TOBACCO FACTORY, in a BRICK building 50x80 feet, 3 stories high, the lower story being two large storerooms. The Tobacco Machinery is new and has a capacity of manufacturing 1,000 lbs. per day. The factory has been worked a year, and a good beginning for a trade has been made. The building and the machinery will be sold together, or separately to suit purchasers.

II.

GRAIN MILLS,

in a 3 story brick building, 28x40 feet. Two Wheat Mills and one Corn Mill, new and complete with a capacity for grinding 100 bushels of wheat and 100 bushels of corn a day, and can compete in quality of flour with any mills in the State. The mills have had a very large local patronage during the past year. They are driven by a 60 HORSE POWER STEAM ENGINE, improved, of the make of TAYLOR & SONS, Richmond.

Attached to the engine is also a 60 Saw COTTON GIN and power press, at a safe distance (about 100 feet) in a different lot. The engine has a brick smoke-stack 60 feet high, making the danger from fire the least possible and the rate of insurance very low.

III.

Several well built and handsome residences, with lots and gardens of about 1 acre to each dwelling. They are wooden buildings, 2 stories high, with from 5 to 7 rooms each situated in desirable locations in the village.

Besides these, 4 one acre lots, with cottage buildings of 2 rooms.

Knabe Pianos.

Mr. N. H. Bennett, agent for Wm. Knabe & Co., has another invoice of those celebrated pianos on the road. If you contemplate purchasing, wait and see them. They will be on exhibition at No. 20 Fayetteville St., about Saturday of this week. The best is the cheapest. It is poor policy to spend our money for cheap pianos without any reputation whatever.

Distance Lends Enchantment!

Maud had a fine figure, good face and pretty name. One should see her at a distance. When she began to talk, you realized that she never used SOZODONT. Her breath was unlike the breezes of Araby the blest.

What Physicians at Home and Abroad Think of the Seven Springs Iron and Alum Mass.

In the treatment of Dyspepsia, Chlorosis, Anaemia, Nervous and Muscular Debility, Nervous and Sick Headache, Dysmenorrhœa, Menorrhagia, Amenorrhœa, diseases of the Kidneys and Bladder and such like organic or functional disturbances, I know of no remedy upon which I can rely with more certainty of satisfactory results than the "Seven Springs Mass."
W. F BARR, M. D.,
Abingdon, Va.

I have found no one single remedy to yield such satisfactory results as the "Seven Springs Mass." In the treatment of Dyspepsia, Chronic Diarrhœa, Anamia, Chlorosis, and for Chronic Eczema, I find it invaluable, associated with appropriate topical treatment.
GEO. T. HARRISON, M. D.,
New York City.

From my experience with the "Iron and Alum Mass," I believe it will prove the best medicine we have in use, for chronic diseases.
G. M. D. PATTERSON, M. D.,
Eaglewood, Texas.

For Dyspepsia, Ulcerations of the Throat, Inflammation of the Neck of the Bladder, Leucorrhœa, etc., the "Seven Springs Mass" seems to act with almost specific effect.
E. O. GRIGSBY,
DeView, Ark.

We could extend this list into the thousands with such testimonials from physicians from every State in the Union, but these are sufficient to indicate its application. The reputation of the remedy is too widely known to waste words upon its character. In ordering from druggists always mention Seven Springs Mass. Price $1 per package or six for $5, sent by mail, postpaid.

THE NEW FRYER.

This useful invention meets a long felt need for a more convenient method of removing Oysters, Potatoes, and other fried food, with greater quickness, and all at once, from the boiling fat in which they have been cooked, and allowing the fat to drain from them while they remain over the fire; thereby getting rid more certainly of the superfluous grease, the objection so often made of the unhealthiness of food cooked in the ordinary frying-pan is done away with.
By detaching the supporter, you have for omelettes and other things for which a drainer is needed, free, a deeper and better quality of frying-pan than has heretofore been made.
